STARFIRE (PAF) This AARS winner for '59 is a GRANDIFLORA with many fine qualities. Its unusual currant-red color is sun-fast, and possesses a unique luminous quality. Flowers occur singly or in clusters on stems 6-12 inches long. The abundant blossoms appear against a background of bronzy green foliage, the leaves being glossy, holly like in composition and shape.

PINK PEACE (PAF) A HYBRID TEA that is a direct descendent of famed PEACE, and has the same fine qualities of tall-vigorous, disease-resistant growth. The color of this rose is a deep, dusty pink, with blooms of terrific size. The huge luminous blooms are borne one to a long stem and of exceptional quality.

SUNLIGHT (Pat. 1576) This HYBRID TEA is remarkable for three great qualities, its good vigor- abundant and healthy foliage-and its unusually good disease resistance. The color is a delicate fusion of rich and sparkling yellows.

RED EMPRESS (Pat. 1573) An everblooming CLIMBER that bears its iridescent red blooms on canes the very first year! The delicious fragrant Hybrid Tea like flowers are borne from one to several on a stem. Truly a vigorous, hardy Climber.
